FREE EVENT

“Fish Farming Talk”

Dave Raney, Sierra Club Marine Action Team

Topics Include:

- Issues & Concerns
- National & State Policies
- Fishpond Restoration
- Aquaponics

Dave Raney, leader of the Sierra Club Marine Action Team will discuss how marine fish farming in Hawai'i relates to national and state policies within the global context of aquaculture as a means to meet food needs for growing populations, and what opportunities, and barriers, exist for community-based alternatives such as fishpond restorations and aquaponics
