Papahānaumokuākea Marine National Monument Permit Application Cover Sheet

This Permit Application Cover Sheet is intended to provide summary information and status to the public on permit applications for activities proposed to be conducted in the Papahānaumokuākea Marine National Monument. While a permit application has been received, it has not been fully reviewed nor approved by the Monument Management Board to date. The Monument permit process also ensures that all environmental reviews are conducted prior to the issuance of a Monument permit.

Summary Information

Applicant Name: Keola Lindsey

Affiliation: Office of Hawaiian Affairs

Permit Category: Native Hawaiian Practices

Proposed Activity Dates: March 28 - April 8, 2017

Proposed Method of Entry (Vessel/Plane): Makani 'Olu

Proposed Locations: Nihoa and Mokumanamana

Estimated number of individuals (including Applicant) to be covered under this permit:

10 - 12 individuals for on-island access for research, with possible 5 staying overnight at a time.

Estimated number of days in the Monument: approximately 12 days

Description of proposed activities: (complete these sentences):

a.) The proposed activity would...

The proposed activity would further cultural research initiatives that are a priority for the Papahānaumokuākea Marine National Monument and allow access for Native Hawaiians to (1) continue documentation and assessments of select sites on the islands; (2) assess the feasibility of the current campsite location as well as other alternatives (3) protect iwi kupuna discovered during August 2016 trip.

b.) To accomplish this activity we would

access the Monument for 12 days, traveling to Nihoa and Mokumanamana (6 days transit time to and from) and approximately 3 days on each island. During the time there, we would: (1) continue archaeological survey and documentation of the islands cultural resources including agricultural features and habitation features; (2) perform cultural protocols specific to the islands and the appropriate occasion (3) Perform limited small test excavations at select sites specific to habitation and agriculture

c.) This activity would help the Monument by ...

This activity would help the Monument by providing products at the end that will help enhance the understanding of cultural resources and also result in the production of plans and reports that will help develop long term strategies for cultural protection, preservation, and education and monitoring. We see this effort as a continuation of past work in the Monument that has helped to renew interest in traditional cultural practices (the voyages of the Hokule'a, Hokualaka'i), protocol, the development of educational curriculum and outreach materials (KCHS, BM, NOWRAMP, Navigating Change), and informed management policy (NWHICRER, PMNM Management Plan, World Hertiage).
